Eco friendly celebration of Diwali

Date :1st Nov 2021

All of us know what Diwali is, but do we all know what a green or eco-friendly Diwali looks like? Green or eco-friendly Diwali is the same as the festival of lights we celebrate every year, but the difference is that we also ensure that the environment isn't harmfully impacted.

BV's New Law College, Sangli, **Eco-Club** organised online competition of Eco-friendly celebration of Diwali.10 students had participated in the competition and they did videos and captured photos of what Diwali they have celebrated which is

not the traditional way but it keeps environment healthy. A green Diwali is a festival in which we avoid carelessness and behave like responsible citizens to protect our environment. Burning crackers on Deepavali pollutes the environment to hazardous levels and therefore increases the chances of global warming.

The main idea behind celebrating an eco-friendly Diwali is to maintain the sustainability of our environment and protect our planet earth. These competitions encourage students to keep environment well. Out of the participants 3 best were awarded with the certificate.
