701.3

Degradable and Non-degradable Waste management

1. **Solid waste-** it is properly collected in the garbage bins of blue and green colours, and it is daily delivered to the Municipal Corporation Waste collection vehicle. Blue colour bin is used for non-degradable waste like plastic, polythene etc.

2. **Liquid waste-** it is not generated on the college campus except the drainage water. The drainage system of the Municipal Corporation is in place to carry drainage water. The drainage channel of college building is connected to drainage system of the Municipal Corporation.

3. **Biomedical waste-** To protect our environment and hygrines, proper care and initiative have been taken by our institute. The college has installed sanitary vending and disposal machines for the careful disposal of sanitary napkins used by every woman on campus. The ash generated from this disposal machines is used as manure.

4. **E-waste-** the waste relating to electronics, electricals, computers, and other digital gadgets are delivered the management of Bharati Vidyapeeth Pune and it is delivered to the independent e-waste collector/buyer agency.

5. **Hazardous chemicals and radioactive waste-** It is not generated in the college.

6. **Waste recycling system-** It is not available in the college.
